

Product change notification

Products affected: **preplT™•Q2A**

Catalog numbers/SKUs: PT-Q2A-96, PT-Q2A-384

Change description: DNA Genotek is discontinuing the preplT™•Q2A DNA extraction reagent. The affected catalog numbers are PT-Q2A-96 and PT-Q2A-384. Inventory has been depleted, and these products have reached end-of-sale status and are no longer available for purchase. We understand this change may require planning on your part, and we are committed to supporting you in identifying suitable alternatives.

Customer action: If you are currently using this product or planning future orders and want to discuss alternative DNA extraction kits and determine the best replacement option for your application, contact your account manager or our Product and Application Support team at **support@dnagenotek.com**.

For any issues or concerns pertaining to this product change notification, email **info@dnagenotek.com**.
